*Propagation Department 2018 List of Varieties.*

*Our custom propagation program has been a great success over the past year and we look forward to growing for you in 2018. Although we grow the bulk of our material as 2.25" liners, First Edition (FE) plants are available only in 1 gallon containers. Take note of the NEW additions to our list and don't hesitate to put forward requests for new material.*

*We cannot ship Prunus or Berberis to the U.S.A.*

*We will be propagating your order at the peak of cutting season, growing it on exclusively for you and shipping it to you in spring 2019.*

*Please place your order by April 1, 2018 as our propagation cue is filling; all minimum orders received by this date will receive a 10% discount.*

*Feel free to contact us for price list or questions.*
