*Healthy
Tasty
Easy
Unique*

Hardy!

Zone 5

Fruit!

Tangy sweet

Growth!

*1 to 3 meters in full
sun.*

Reliable!

*Own root not
grafted*

At Adamson's our propagation skills with own root plants is unequaled. Goji Berry or commonly called Wolfberry is a wonderful natural food shrub we now propagate.

As grow your own food roots out across North America, we continue to expand our offerings of garden worthy plants. Available in Liners late spring 2013.
